

Immune Globulin Stewardship Series

As a trusted leader with a long heritage of developing Immune Globulin (IG) treatments for Primary Immunodeficiency (PI) patients, Shire introduces the IG Stewardship Series. These presentations are focused on educating healthcare professionals and stakeholders within various health systems on PI and various IG-related topics, including IG treatments, with the goal of helping to improve the patient experience of care. Through education, support, and trusted partnerships, Shire aims to improve the lives of patients living with PI.
